EXPERIENCE

BitNorm, Netherlands — *Frontend Engineer*

OCTOBER 2023 – PRESENT

* Developed high-performance and SEO-friendly web applications using Next.js, resulting in improved user experience and search engine visibility.

* Utilized Chakra UI to create accessible and customizable user interfaces, enhancing usability and brand consistency across projects.

* Leveraged Tailwind CSS to rapidly build responsive and visually appealing designs, reducing development time and effort.

* Integrated GraphQL and Apollo Client to efficiently fetch and manage data, improving application performance and scalability.

* Implemented client-side caching and data prefetching strategies to optimize network requests and reduce loading times.

* Collaborated closely with backend engineers to design and implement GraphQL schemas and resolvers, ensuring seamless data integration and retrieval.

* Conducted code reviews and provided feedback to maintain code quality and consistency across the codebase.

* Stayed up-to-date with the latest frontend technologies and best practices, contributing to a culture of continuous learning and improvement within the team.

Munkai, Africa. — *Project Manager*

JANUARY 2022 – MARCH 2024

* Successfully led cross-functional teams in the planning, execution, and delivery of the Munkai WebApp, meeting all project milestones and deadlines.

* Implemented project management methodologies such as Agile or Scrum, resulting in improved team collaboration, productivity, and project delivery.

* Managed project budgets, resources, and timelines effectively,

SKILLS

Reactjs | Nextjs | MERN | JavaScript | Solidity | Solana | Figma.

LANGUAGES

English, Igbo, French.

ensuring projects were completed within scope and budget constraints.

* Identified and mitigated project risks and issues proactively, minimizing project disruptions and ensuring timely delivery.

* Fostered a culture of accountability and transparency within project teams, leading to increased team morale and productivity.

* Communicated project status, updates, and key milestones to stakeholders and senior management, ensuring alignment and transparency throughout the project lifecycle.

* Implemented project management tools and systems to streamline workflows and improve project tracking and reporting.

* Conducted post-project reviews and lessons learned sessions to identify areas for improvement and implement best practices for future projects.

Abound Consult, Lagos, Nigeria. — *Frontend Engineer*

JUNE 2021 – SEPTEMBER 2023

* Developed dynamic and responsive user interfaces using React.js, resulting in enhanced user engagement and satisfaction.

* Leveraged Next.js framework to build server-rendered and statically generated web applications, improving performance and SEO.

* Utilized Material UI, Bootstrap, and Tailwind CSS to create visually appealing and consistent designs, ensuring a seamless user experience across different devices and screen sizes.

* Implemented animation and gesture-based interactions using Framer Motion, enhancing the interactivity and usability of web applications.

* Managed application state efficiently using Redux, ensuring predictable state management and facilitating collaboration among team members.

* Integrated React Query for data fetching and caching, optimizing network requests and improving application performance.

* Collaborated closely with designers and backend engineers to translate wireframes and API specifications into functional and intuitive user interfaces.

* Conducted code reviews and provided constructive feedback to maintain code quality and ensure adherence to best practices.

Lapo MFB, Lagos, Nigeria. — *Frontend Engineer*

JANUARY 2021 – MAY 2021

* Developed responsive and engaging user interfaces using React.js, resulting in improved user interaction and satisfaction.
* Leveraged Flutter framework to build cross-platform mobile applications with native performance, reducing development time.
* Utilized Material UI and Bootstrap to create visually appealing and consistent designs across web and mobile platforms, enhancing brand identity and user experience.
* Implemented state management solutions such as Redux and MobX to efficiently manage application state and ensure seamless data flow.
* Optimized front-end performance by implementing code splitting, lazy loading, and caching strategies, resulting in faster page load times and improved user retention.
* Integrated RESTful APIs into front-end applications, enabling seamless data retrieval and manipulation.
* Collaborated closely with designers and backend engineers to translate wireframes and API specifications into functional and intuitive user interfaces.
* Conducted usability testing and gathered user feedback to iterate and improve upon front-end designs, resulting in a more intuitive user experience and higher engagement metrics.

DevCareers, Lagos, Nigeria. — *Frontend Engineer (Intern)*

AUGUST 2020 – NOVEMBER 2020

* Implemented responsive and visually appealing user interfaces using ReactJS, resulting in improved user engagement metrics.
* Optimized website performance by implementing code splitting and lazy loading techniques, leading to a X% decrease in page load times.
* Collaborated closely with UX/UI designers to translate wireframes and mockups into functional and pixel-perfect web applications.
* Enhanced accessibility by implementing ARIA roles and semantic HTML, resulting in improved usability for users with disabilities.
* Integrated third-party APIs seamlessly into web applications, expanding functionality and improving user experience.
* Conducted performance audits and implemented optimizations to ensure smooth rendering and interaction across various devices and browsers.

* Actively participated in code reviews, providing constructive feedback and identifying opportunities for code refactoring and improvement.
* Mentored junior developers, fostering their growth and development in front-end technologies and best practices.

EDUCATION

Les Cours Sonou University, Benin Republic — *Bsc*

JAN 2014 - OCT 2017

COMPUTER SCIENCE

PROJECTS

Fortuna

- Tools: NextJs, Tailwind, Vercel.
- Available on https://divinedraw.com

Promptopia

- Tools: NextJs, Nodejs, Tailwind, MongoDB, Vercel.
- Available on https://promptopia-halfdobis.vercel.app

Munkai

- Tools: ReactJs, NodeJs, NestJs, MongoDB, Solidity, Vercel, Heroku, Remix, BSC Testnet, BSC Mainnet.
- Available on https://munkai.art

My Portfolio

- Tools: Html, CSS, JavaScript, Vercel.
- Available on https://halfdobis.vercel.app
